Dear Marcos,

It is a pleasure to accept your manuscript entitled "Four-Objective Formulations of Multicast Flows Through Evolutionary Routing with QoS and Traffic Engineering" for publication in the Telecommunication Systems. The comments of the reviewers who reviewed your manuscript are included at the bottom of the letter.

Congratulations and we look forward to receiving your future papers for Telecommunication Systems.

Please electronically submit the final files and materials for your manuscript to me.

Thank you for your contribution.

Best regards,

Jia Hu

=====

reviewer 1

The authors have responded to my comments and included them in the revised manuscript. I suggest acceptance.

reviewer 2

This study presents two four-objective formulations of Multicast Flow Routing Problem where a multicast tree must be set to carry a new flow into a network.

The revised paper has properly addressed the previous review comments and can be considered to be accepted for publication in this journal.
